
Prosthodontist • Prostodontis

Dear Patient

Welcome to our practice which is situated in the suburb of Randpark Ridge in Johannesburg. The practice was established in 1993, and has modern, well equipped treatment centres to provide you with the best levels of specialised dental care.

Our practice is focussed on multi-faceted treatment options, aimed at long-term dental health and function. We provide our patients with a wide range of prosthodontic treatments and have a team of dedicated staff members to make sure your experience at our practice is a pleasant one.

The initial Consultation fee is **R650** and is payable after the consultation appointment at our practice.

Your initial Consultation will consist of an assessment of the current status of the dentition and the jaw joints. During this assessment, Dr Bester will decide if any additional diagnostic procedures are indicated to assist him with the formulation of a treatment plan for you.

Your next appointment will be a Comprehensive Examination. During this procedure, the following diagnostic material will be obtained.

- A full set of x-rays.
- Impressions for study models.
- An Occlusal Analysis.

During the Treatment Plan Discussion appointment, Dr Bester will discuss your personal treatment plan options with you and you will be given a written treatment plan and estimation of costs, for your consideration.

Please assist us by providing the following information at the time of your consultation:

- Your referral letter and any current X-rays, if applicable.
- A list of medications you are presently taking (Homeopathic and prescription included).

Payment options at our practice:

Cash, all major credit cards, EFT and bank guaranteed cheques.

Thank you for choosing our practice and we look forward to meeting with you.

Regards

Dr Bester and staff
